

THE CSL GROUP

DELIVERING MARINE SHIPPING INGENUITY **WORLDWIDE**

WE HAVE A LONG HISTORY OF INNOVATION

Our humble beginnings can be traced back to 1845 and a paddle steamer on the Richelieu River.

WE OPERATE AROUND THE WORLD

Headquartered in Montreal, Canada, we have offices in the United States, Europe, Australia and Africa.

WE ARE A LEADER IN SUSTAINABLE SHIPPING

We prioritize decisions that have a positive impact on people and the environment.

We are The CSL Group Inc., a world class provider of complex marine solutions with a history that dates back to 1845. We are the world's largest owner and operator of self-unloading vessels, the third largest cement carrier, and a leader in high-efficiency transshipment solutions.

We are proud to provide a broad range of shipping and handling services to customers around the world. Our fleet consists of a wide range of specialized self-unloading ships, bulk carriers, multi-purpose product vessels, transshippers, and barges, making us a leading provider of marine dry bulk cargo handling and delivery services.

We transport and tranship millions of tonnes of dry bulk commodities each year, representing over 50 types including iron ore, aggregates, grain, cement, gypsum and salt.

Our team consists of approximately 1,500 people globally, working in a wide range of positions on board our ships and in shore-based functions. We are dedicated to the wellbeing and development of our employees, promoting a corporate culture that values high ethical standards, a safe and healthy workplace, and respect for the environment.

OUR PURPOSE

Our purpose is to set the standard for safer, smarter, and cleaner shipping toward a sustainable future that benefits people, our planet and our customers.

We're deeply committed to striving for zero harm in everything we do. We use innovative technologies and data analytics to optimize our operations, delivering the best possible service and maximum efficiency, while minimizing risks to people and the planet.

CSL is a company that's driven by purpose and guided by values, and we're committed to creating a brighter, more sustainable future for all.

OUR SERVICES

INDUSTRIAL BULK SHIPPING

Our industrial dry bulk shipping services offer a wide range of specialized vessels and transportation solutions for various cargo types. We provide self-unloading capabilities, geared and gearless bulk shipping options, and cement shipping services.

Our fleet of vessels is designed to transport dry bulk commodities efficiently, safely, and with the utmost care for people and the environment. Our experienced crew and advanced technologies ensure that your cargo is handled proficiently and with precision, from loading to delivery.

GEARLESS BULK SHIPPING

GEARED BULK SHIPPING

TRANSHIPMENT

CSL has an impressive track record of providing high capacity, reliable, cost effective and environmentally sound transshipment services to mining companies around the world.

Our customized transshipment systems are designed and built to meet and often surpass the highest technological, safety and environmental standards, even in the most challenging environments.

OFFSHORE AND SHORELINE CONSTRUCTION

CSL's unique assets and expertise offer effective, reliable and cost-efficient rock logistics solutions to service offshore and shoreline construction projects. Our specialized self-unloading ships are equipped with onboard cargo-handling systems that deliver high-volume offshore and shoreline discharges with the highest technological, safety and environmental standards.

MULTI-PURPOSE PRODUCT SHIPPING

We complement our bulk shipping services with a versatile fleet of specialized multi-purpose product (MPP) ships that cater to the unique needs of niche markets. Our growing fleet of MPP vessels is equipped with specialized onboard grabs and other advanced equipment, enabling us to transport a wide range of cargoes safely and reliably to and from smaller ports that require small-sized geared tonnage.

CUSTOM-BUILT MARINE SHIPPING AND HANDLING

CSL collaborates closely with customers to envision, build, and implement tailored marine shipping and handling solutions that deliver outstanding performance while prioritizing safety and sustainability. Our highly skilled technical teams work closely with customers in tandem with naval design and engineering partners to deliver best-in-class bulk material handling systems for both shipboard and shoreside applications.

OUR CUSTOMER APPROACH

Customized Solutions for Safe, Sustainable and Reliable Shipping

An essential part of our business philosophy is our integrity and commitment to our customers. Leveraging our resourcefulness, expertise, and 100+ years of cargo-handling experience, we provide sound shipping solutions that ensure the reliability and productivity of our customers' shipping and transshipment operations.

We pride ourselves on building and operating vessels designed to last 25+ years, and we extend this commitment to our customer relationships. Our focus is on fostering long-term partnerships and ensuring marine supply chain reliability. As an integral part of our customers' supply chains, we often serve as their sole marine transportation provider.

To support our customers' businesses, we have established a robust operational standard that prioritizes maximum vessel uptime and on-time performance. With an extensive track record in managing complex marine logistics alongside our partners, we cater to customers across all sectors of the dry bulk industry.

SUSTAINABLE PARTNER IN A RESPONSIBLE SUPPLY CHAIN

We prioritize our customers' desire for zero harm, environmental responsibility, and sustainability by offering reliable, eco-conscious solutions. We actively collaborate with them to align our marine transportation solutions with their responsible sourcing and supply chain practices.

BESPOKE SOLUTIONS THAT DELIVER RESULTS

We approach each project understanding that unique operating conditions and requirements demand tailored services that meet the highest standards of safety and environmental performance.

A PARTNER AT EVERY STEP

We work closely with our customers throughout the entire project lifecycle. Our collaborative approach and innovative solutions ensure we go above and beyond their expectations.
